

# TOP 10 REASONS SEALIFE IS THE WORLD'S BEST SELLING UNDERWATER CAMERA

① Sharpest, most colorful photos, underwater or on land, plus HD Video

② 5 underwater shooting modes with color correction - no more blue pictures

③ Super Macro Auto Focus down to 1-inch away from your subject

④ Built-in synching to underwater strobe, essential for colorful underwater shots

⑤ Expandable with accessories like the Flash, Video Light, & Wide Angle Lens

⑥ Designed for divers by divers, our sets are ready to dive right out of the box

⑦ 5X optical zoom and big 3-inch color LCD for easy on camera viewing

⑧ Large, "Piano Key" controls for easy underwater operation, even with gloves

⑨ Rugged, rubber-armored housing designed tough

⑩ Unmatched service support from the SeaLife team

## POINT-OF-VIEW CAMERAS:

- Are designed for video, not still images
- Use small controls and are difficult to handle underwater
- Use confusing menus and unmarked buttons
- Only offer LCD displays separately at a high cost
- Don't have a flash or the ability to sync to an external flash
